

ENGAGE:

An Intercultural Approach

Family and Community Engagement: An Intercultural Approach

WORKSHOP

This new, one day, workshop will explore the practical benefits an intercultural approach provides family and community engagement services and professionals.

...workshop overview:

- this is a new and innovative workshop
- the workshop combines practical and theoretical perspectives, with the focus being on the practical requirements of workshop delegates
- the workshop is flexible and adaptable, and will be shaped by delegate participation

The workshop is based on 4 interconnected units, taking delegates through a practical and theoretical journey of intercultural exploration. The 4 workshop units are outlined below:

...workshop content:

Engagement: reflection upon contemporary issues and challenges

- mapping the challenges facing family and community engagement workers
- undertaking effective community consultation and engagement
- addressing and, meeting, the needs of service users

Intercultural theories: a review of interdisciplinary intercultural theoretical perspectives

- intercultural concepts and perspectives
- contemporary cultural concepts and insights
- family engagement and community engagement theories
- global cultural typologies
- cultural transitions: integration, acculturation and change

Intercultural competencies: practical cultural and intercultural competencies

- intercultural competencies: mapping skills, tools and techniques within the following framework:
 - individual/personal competencies
 - collective/group competencies
 - organisational competencies
- professional practitioner competencies and capabilities
- intercultural – family and community engagement - case studies

Intercultural practice: exploring the alignment of family and community engagement practice with intercultural intentionality

- leading and managing engagement programmes
- demographic and community mapping
- community engagement and consultation
- designing and developing service delivery provision and engagement interventions
- monitoring, evaluation and assessment
- performance and statutory compliance

...Interact: centre for intercultural learning & action

Interact is an organisation dedicated to promoting and supporting intercultural development through:-

- delivering intercultural education and training
- undertaking interdisciplinary research and analysis, promoting intercultural dialogue and discourse
- delivering strategic and operational intercultural support; namely, consultancy support, advice and information
- promoting and implementing cultural intelligence and intercultural competencies within community, educational, public and private organisations

...workshop - practical arrangements:

The workshop is an innovative pilot project and will charge a minimal administration fee of £20.00 per delegate. Basic catering and refreshments will be provided.
